

[illegible]

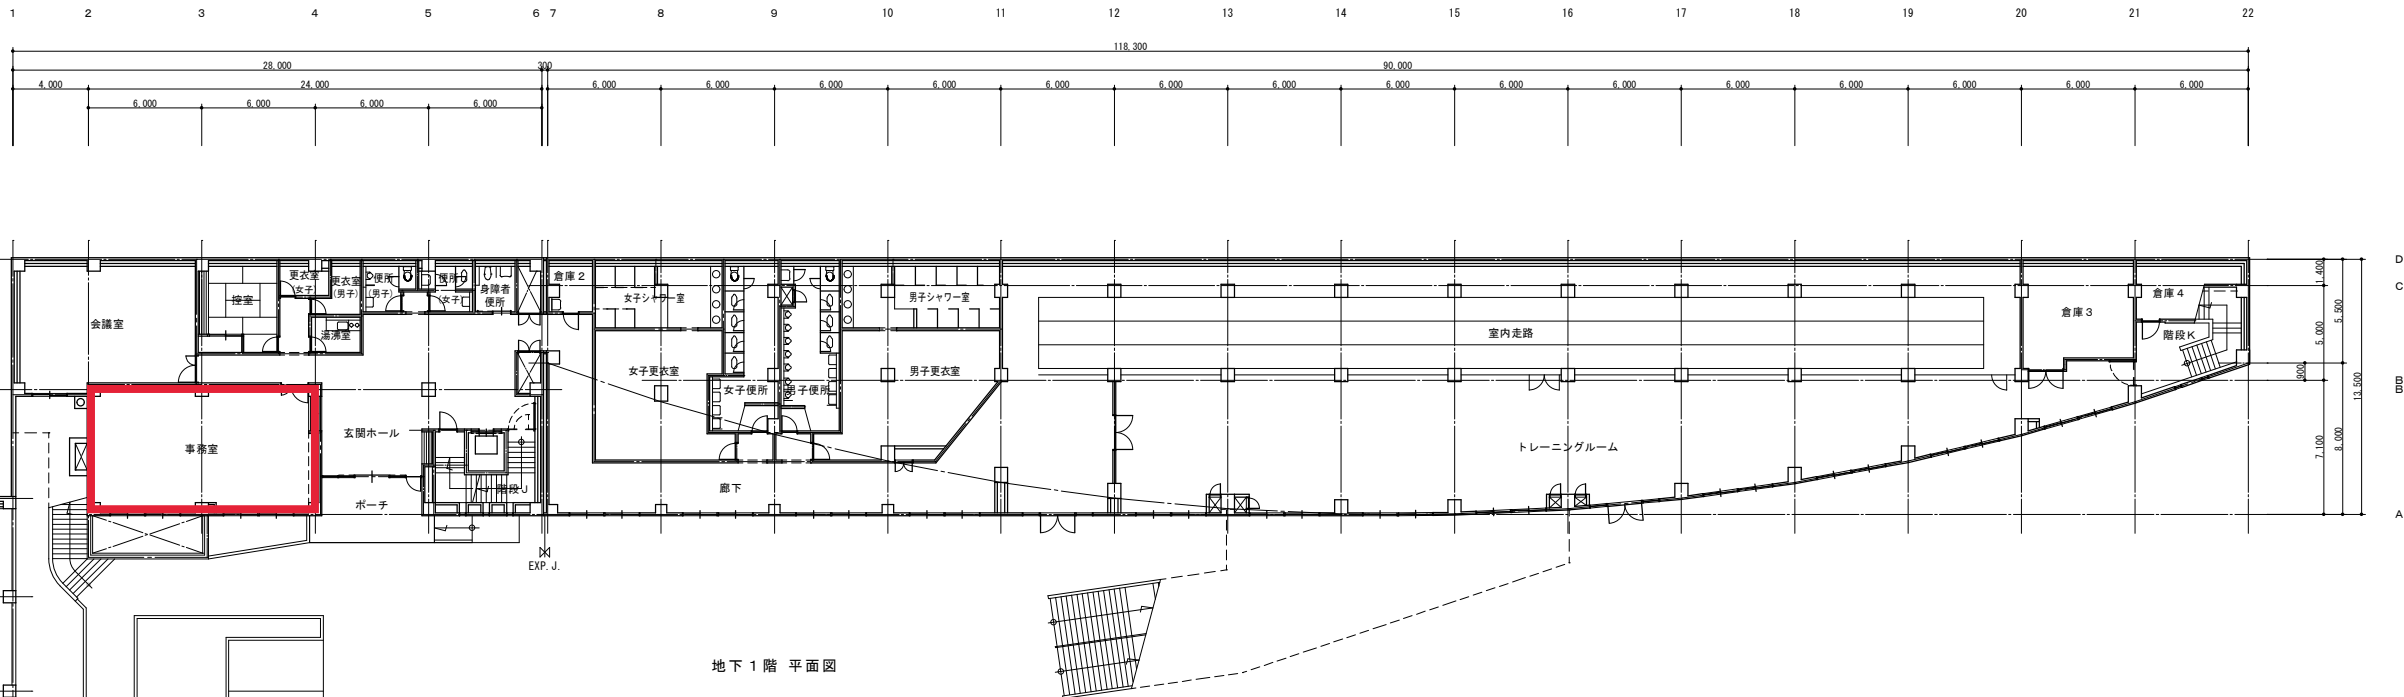

Figure 1: Floor plan of the 1st floor. The plan shows a rectangular building with a total width of 24,000mm and a total depth of 13,500mm. The width is divided into four 6,000mm sections, and the depth is divided into two 6,900mm sections. Key areas include: a large central hall (ホール) with a diagonal cross; a boiler room (ボイラー室) on the left; a mechanical room (機械室) on the right; a storage room (倉庫) at the bottom right; and a drying area (ドライエリア) at the bottom left. Various rooms are labeled with their dimensions and specific features like '(下部排水槽)' (lower drainage tank) and '(下部換気口)' (lower ventilation port).
